

PETRUS-III PROJECT

(Contract Number: FP7 - 605265)

Deliverable: D4.31

Steering board meeting

Nature of the deliverable		
R	Report	X
P	Prototype	
D	Demonstrator	
O	Other	

Author(s): Bojan Hertl, ARAO

Reporting period: M6

Date of issue of this report: 30.6. 2015

Start date of project: 01/09/2013

Duration: 36 Months

Project co-funded by the European Commission under the Euratom Research and Training Programme on Nuclear Energy within the Seventh Framework Programme		
Dissemination Level		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the partners of the PETRUS III project	
CO	Confidential, only for partners of the PETRUS III project

Table of Contents

1) Background5
2) Steering Board activities6

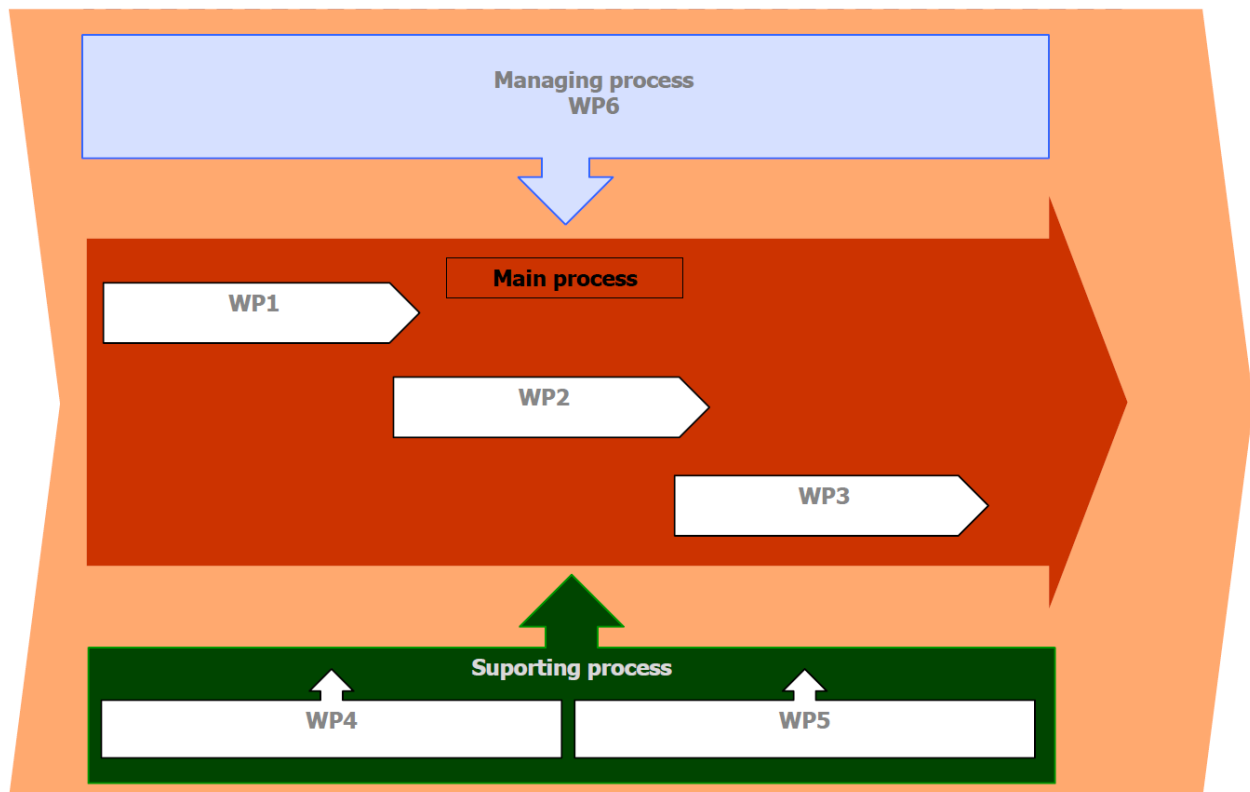

1) Background

PETRUS III project is the one of ECVET BASED EFTS ("EURATOM FISSION TRAINING SCHEMES") implementing sustainable E&T programme in the field of Radioactive Waste Disposal towards geological disposal E&T goals.

Its objectives are:

- Practical implementation of the PETRUS training programme following ECVET principles. Learning outcomes will be defined in a "Competency-Based Curriculum", using the "Designing a Curriculum" (DACUM) process, established by British Columbia University.
- Elaboration of a multidisciplinary training framework for PhD students. The objectives are 1) to fast-track research activities in geological disposal by proposing customised training programmes, 2) organizing periodic PhD workshops and 3) favouring the emergence of multidisciplinary research.

In order to foster the organisation and the management of both existing PETRUS educational programme and future Professional Development training programme and to ensure the sustainability of the initiative, a **Steering Board** was created. The work of the Board was focused on issues related to the PETRUS E&T programmes' governance (**Picture 1**).

2) Steering Board activities

Based on DOW the board should have six members constituted by the Project leader, work-packages 2, 3 and 4 leaders and two other members that will be appointed at the start of the project among the consortium partners or from outside of the consortium. The board should choose its chair person.

In Cardiff Steering board was created with WP 1, 2 and 3 leaders plus the project coordinator and representatives of Linnaeus University and Czech Technical University. Based on Project coordinator proposal WP 4 leader was chosen as chair person.

The work of the board intends to be focused on:

- work with the project partners, end-users council and the IGD-TP CMET working group to evaluate, develop,
- activities to market and pilot the PETRUS education and training programmes,
- develop policy for including new recourses, opportunities and partnerships to the existing programmes,
- activities to manage the practical organisation of the training programmes and shape the long term development,
- following the quality and programmes' progress and propose adjustments and improvement as necessary.
